**Re: Ashland 1 Confirmatory Sampling Data as of October 6, 1999**

**Dear Mr. Verbica:**

This letter transmits the following data, which IUSA has agreed to obtain and send to the State of Utah. These data are being collected under the terms of the IT Corporation ("IT") and International Uranium (USA) Corporation ("IUSA") Sampling and Analysis plans to provide confirmatory sampling to ensure that the Ashland 1 materials contain no "listed" hazardous wastes.

**1. ANALYTICAL RESULTS FROM IUSA**

Raw data from IUSA on-site confirmatory sampling of Ashland 1 material shipments received at the Mill are provided in Attachment 1. Sampling was performed in accordance with the IUSA Sampling and Analysis Plan ("SAP") for Ashland 1 materials. The analyses were received by IUSA from the analytical laboratory between September 2, 1999 and October 6, 1999.

**2. ANALYTICAL RESULTS FROM IT**

Attachment 2 contains all analytical results from Ashland 1 on site post-excavation confirmatory sampling that IT Corporation ("IT") has provided to IUSA since September 2, 1999.

3. REVISIONS TO IUSA SAMPLING AND ANALYSIS PLAN

Please note that IUSA has, in conformance with Section 6.0 of our Sampling and Analysis Plan, revised Table 1 of the SAP four times based on a review of the data. Copies of the Safety and Environmental Review Panel ("SERP") meeting reports, including the updated SAPs, from the SERP meetings of September 14, 1999 and September 23, 1999 are transmitted herewith as Attachment 3. We thank you again for your comments and concurrence on the SERP of September 14, 1999.

I can be reached at 303.389.4131.

Sincerely yours,

Michelle R. Rehmann  
Environmental Manager
