Re: Energy Fuels Exchange, No Adverse Effect Determination

Dear Dr. Smith:

We request your formal concurrence in a finding of No Adverse Effect in the proposed exchange of approximately 2600 acres south of Blanding to Energy Fuels Nuclear, Inc. Documentation for this determination is provided herein (Enclosure 1).

Since Mr. James L. Dykman of your staff helped construct the cultural preservation stipulation (Enclosure 2) to be included in the deed, we are confident of your basic agreement in this matter. However, should you have any suggestions to improve the wording or other aspects, please feel free to provide them.

Please note that the 148 sites included in the exchange are only part of the proposed addition to the National Register archeological district which had 194 sites (see Enclosure 2, Appendix B).

We appreciate your assistance in this matter. If there are any questions, please contact Bruce Louthan at (801) 259-6111.

Sincerely yours,
/s/ S. GENE DAY
