**VIA FACSIMILE AND US MAIL**

Dane L. Finerfrock, Executive Secretary  
Utah Radiation Control Board  
Utah Department of Environmental Quality  
168 North 1950 West  
P.O. Box 144810  
Salt Lake City, UT 84114-4810

**Re: Application by International Uranium (USA) Corporation ("IUSA") for an amendment to State of Utah Radioactive Materials License No. 1900479 for the White Mesa Uranium Mill (the "Mill") to authorize processing of FMRI, Inc. alternate feed material (the "Uranium Material")**

Dear Mr. Finerfrock:

In Section 2.2 of our license amendment application for the Uranium Material we state that the Uranium Material will be comprised of the materials stored in on-site Ponds 2 and 3, together with ancillary drummed material. We have been advised by FMRI, that in fact the Uranium Material will not contain any ancillary drummed material. Please be advised that the Mill will not receive any drummed Uranium Material under this license amendment.

If you require any further information or would like to discuss the foregoing, please contact me at your convenience.

Yours truly,
