Re: Calcium Fluoride TCLP Results

Dear Mr. Hall:

As discussed with Dana Ward of your office Umetco's review of the TCLP results on the CaF₂ material shows the material does not exhibit a Toxicity Characteristic as it has passed the TCLP test.

A copy of the TCLP analysis performed by Data Chem of Salt Lake City on the Allied Calcium Fluoride, was received at your office on 8-4-93.

If I can be of any further assistance in regards to this matter, please feel free to contact me.

Sincerely,

S. L. Schierman
Radiation Protection Officer
